

Triticale Receival Standards Season 2008/2009

- **TRIT** = Triticale (No.1) Receival Standards
- **TRI2** = Triticale (Feed) Receival Standards

CATEGORY		CODE	TRIT	TRI2
Moisture content	Max %	MO	12.5	12.5
Test weight	Minimum kg/hl	TW	65	60
Screenings -below the screen 2.0mm slotted	Max % (by weight)	SC	10	15
Unmillable material - above the screen	Max % (by weight)	SA	5	10
DEFECTIVE GRAINS Max % (300 grain count)				
Sprouted Grains	Max % by 300 grain count	SP	2	No Limit
Insect damaged Grains		ID	2	4
Stained Grains		FS	15	50
Of which				
Pink Grains		PF	5	5
Dry Green, Sappy and Frost Distorted grains		GS	2	No Limit
Bin Burnt Mouldy or Musty			Nil	
SEEDS CONTAMINANTS - Maximum Count per ½ litre. *Type 1 = Individual Seed Basis				
Type 1*: Three Cornered Jack, Poppy, Parthenium Weed		S1*	8	8
Type 2: Coriander, Wild Garlic, Ragweed, St Johns Wort		S2	NIL	NIL
Type 3a: Caltrop, Bathurst Burr, Cape Tulip		3A	2	2
Type 3b: Vetch		3B	4	4
Type 3c: Heliotrope		3C	8	8
Type 4: Cutleaf Mignonette, Skeleton Weed, Nightshades, Melilotus, Variegated Thistle		S4	20	20
Type 5: Knapweed, Salvation Jane		S5	40	40
Type 6: Colombus Grass, Johnson Grass, Saffron Thistle		S6	50	50
Type 7: Pulses, Corn, Sunflower, Safflower		S7	10	100
Type 8: Cereal Grains, Turnip Weed, Black Oats, Brome Grass, Lucerne Pods.		S8	150	400
Small Foreign Seeds	Max % (by weight)	SS	1.2	NA
Nominated weed seeds in Triticale are equivalent to those for Wheat, with TRIT equivalent to AGP1 & TRI2 equivalent to FED1.				
OTHER CONTAMINANTS - Maximum per ½ litre				
Smuts / Ergots:				
Ball & Gall Smut or other smut species, cereal ergots			NIL	NIL
Ergot of Ryegrass			NIL	NIL
Triticale Ergot	Maximum pieces per ½ litre	TE	1	1
Stored Grain Insects: Live			NIL	
Dead	Maximum per ½ litre	DI	5	
*Includes Peas Weevil				
Field Insects (Dead or Alive)	Maximum per ½ litre	FI	3	3
Sitona Weevils		SI	10	10
Sand & Earth	Maximum per ½ litre		NIL	
SNAILS (Dead or Alive) - Round or Conical	Maximum per ½ litre	SNR SNC	1	5
Objectionable Material: Sticks, stones, glass, concrete or any commercially unacceptable contaminant, smell or taste			NIL	
Pickled and Coloured Grain including Fusarium (Pink) (Fungal stained)			NIL	
Odours, Sour & Musty, or Post Harvest Mouldy Grain			NIL	
Chemical Residues: Residues of any chemical compound not approved for Triticale or used in contravention of the labelled instructions			NIL
