

Canola Sample Declaration

Viterra Ltd will be collecting Canola grower load samples for the 2010/2011 harvest from all loads delivered to sites.

As part of a quality testing program, Viterra Ltd has introduced Canola GM and Chemical Residue testing to ensure that canola quality meets expectations of customers and the market.

These measures are necessary to avoid breaches in the use of chemicals not registered for use and that Maximum Residue Levels (MRLs) are not exceeded.

To the best of your knowledge you warrant that:

- A.** none of the Commodity in the Load will have been treated (unless specified below) with any:
 - (i) insecticide, pesticide or other chemical or seed treatment; or
 - (ii) pickling compound
- B.** none of the Commodity in the Load is a genetically modified variety, otherwise
- C.** chemicals have been applied in accordance with registered label and approved permit instructions including:
 - (i) rates not exceeding the maximum approved levels; and
 - (ii) withholding period observed

If you breach any of the above warranties you agree to indemnify Viterra against all claims including but not limited to any third party claims.

Chemical applied to the commodity whilst under your control (attach list if necessary)

List of all agricultural chemicals (excluding fertilisers) applied to the commodity while it was under your control, as follows:

- (a) from seeding emergence to windrow/harvest for fodder; and
- (b) from commencement of flowering to windrow/harvest for grains

Chemical applied	Rate/Ha or tonne	Application Date	WHP	Date of windrow/ Harvest

It is an offence to provide false information.

I, _____ (classifier name), have collected a ½ litre representative sample from the load identified by the transaction number _____ on _____ (date).

Classifier Signature _____

Grower/Carrier Name _____

Signature _____
